

Product End-of-Life Notification

This document is the property of e2v semiconductors, not to be disclosed or copied without prior written consent
Printed form FC32S120010 / Rev D

EOL Number : GE 151151

Date: March, 23 2015

Product Description & Replacement:

Freescale PowerQUICC III Integrated Processor in 1023-pin PBGA Package 1023

P/N's: PC8572 reference PC8572ELVZFAVNE

Reason for EOL:

Freescale original supplier is migrating this line of product/package towards leadfree (both bumps and ball finish). These new lead free devices are compliant with European Union RoHS standards.

This change does not affect the fit, form and functions of the part and the electrical characteristics remain unchanged.

Last Time Buy Date (date the last purchase order must be received by): August 28st, 2015

Last Ship Date (date the last shipments will be made): August 2016

e2v and its supplier base are currently considering to initialize the qualification of lead finish reballed version of the above products to keep them available to our customers (but bumps will definitively turn to leadfree) .

A dedicated PCN shall be issued in early 2015 to describe this with the exact associated timeline.

e2v Contact: semiconductors.MKT@e2v.com or Sales office

APPROVAL By TRB : Quality Manager

Any supply will be subject to e2v's capacity and resource constraints.

Last time buy pricing will be advised by e2v depending on quantity.

Obligations beyond the last delivery will be limited to warranty support only.

The supply of products will be subject to e2v general terms and conditions of sale or any specific contractual terms agreed between the parties.
